

not include those INA WtW grantees participating in the demonstration under Public Law 102-477. Any INA WtW burden estimate(s) for "477 grantees" would be included under OMB Clearance Number 1076-0135.

The individual time per response (whether plan, record, or report) varies widely depending on the degree of automation attained by individual grantees. Grantees also vary according to the numbers of individuals served in each fiscal year. If the grantee has a fully-developed and automated MIS, the response time is limited to one-time programming plus processing time for each response. It is the Department's desire to see as many INA WtW grantees as possible become computerized, so that response time for planning and reporting will eventually sift down to an irreducible minimum with an absolute minimum of human intervention.

Estimated Grantee Burden Costs: (There are no capital/start-up costs involved in any INA WtW activities)

Recordkeeping: 36,000 hours times an estimated cost per grantee hour of \$20.00 (including fringes) = \$720,000.

Reporting: 5,760 hours times \$20.00 = \$115,200 per year.

Total estimated burden costs: \$835,200 (nationwide).

As noted, these costs will vary widely among grantees, from nearly no additional cost to some higher figure, depending on the state of automation attained by each grantee and the wages paid to the staff actually completing the various forms.

All costs associated with the required submissions outlined above, whether for recordkeeping or reporting purposes, are allowable grant expenses.

Comments submitted in response to this comment request will be summarized and/or included in the request for Office of Management and Budget continuation of the information collection request; they will also become a matter of public record.

Signed at Washington, DC, this 17th day of March 1998.
